## Bruce Hearn, of Properties in Paradise to launch the newly renovated Cerulean Villa, on Anguilla

March 14, 2013

[Propertiesinparadise.com](http://Propertiesinparadise.com), a full service villa management, consulting and real estate firm is proud to announce that Anguilla's luxurious Cerulean Villa has joined their impressive client list. Bruce Hearn, a veteran of luxury villa management will lead the team in launching the stunning nine-bedroom beachfront estate after a 2-year, major renovation to be completed in November 2013. Mr. Hearn was general manager of the Cerulean from 2002-2010 until he launched his consulting firm, Properties in Paradise with wife and partner Elaine Hearn. Bruce brings an intimate knowledge of both Cerulean and the discerning clientele who choose top tier estate homes for vacationing.

"I cannot say how honored and excited I am to be at the helm of this outstanding project. Cerulean has always been close to my heart but even I was amazed when I saw just how incredible this villa is going to be. It retains its gracious style and open-air living but will have climate controlled, bedrooms and living areas. A showcase gourmet kitchen, large media room, private spa treatment room and an expansive new heated pool will offer the ultimate in entertainment and relaxation." Mr. Hearn says.

"As I have broadened my skills by collaborating with Starkey Institute, the premier institute of household management in North America, I plan to implement exceptional private service found in the homes of the wealthiest, most discerning individuals," he adds. "This estate will be the jewel of the Caribbean, offering the pinnacle of gracious island living, amenities and personalized service."

The new owners, frequent Cerulean guests during Mr. Hearn's tenure as general manager, fell in love with the location and decided to upgrade the exquisite island home and elevate the level of service to a world class standard. They are excited about the expertise Mr. Hearn brings to the position and confident he will be instrumental in making the new Cerulean the number one private villa estate in the Caribbean.

For more information or to inquire about booking the new Cerulean, contact Bruce Hearn at the links below.
